## User Guide

Hello and Welcome to our information system.

We would like you to guide you through the system

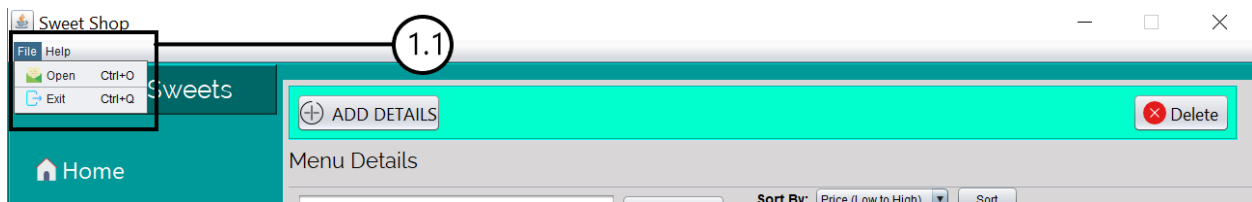

### 1. Menu Bar

Here, we have the menu bar for the system consisting functions of the system.

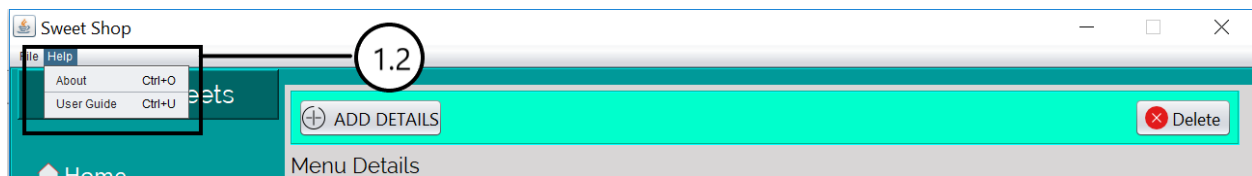

#### 1.1. File - Contains Open(Ctrl + O) and Exit(Ctrl + Q) Option

Here, the **Open** menu helps to open the user guide in pdf format and similarly **Exit** helps to exit the system. The menu consists of shortcut for the easy usage.

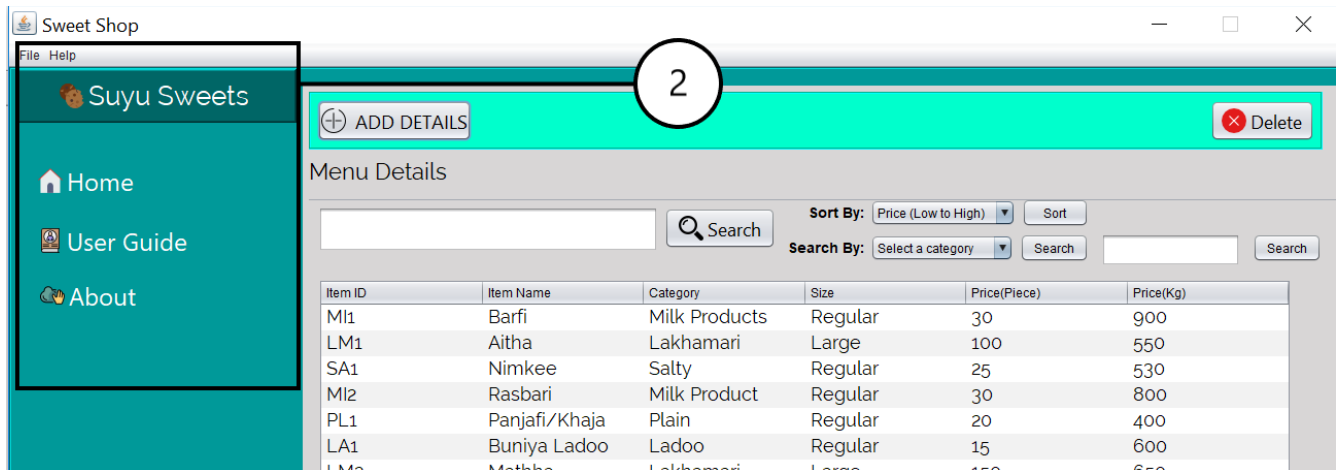

#### 1.2. Help - Contains About (Ctrl + A) and User Guide (Ctrl + U)

Here, the help menu includes two menu items, about and user guide. The about menu contains the information related to the creators and the User Guide includes the guide for using the system.

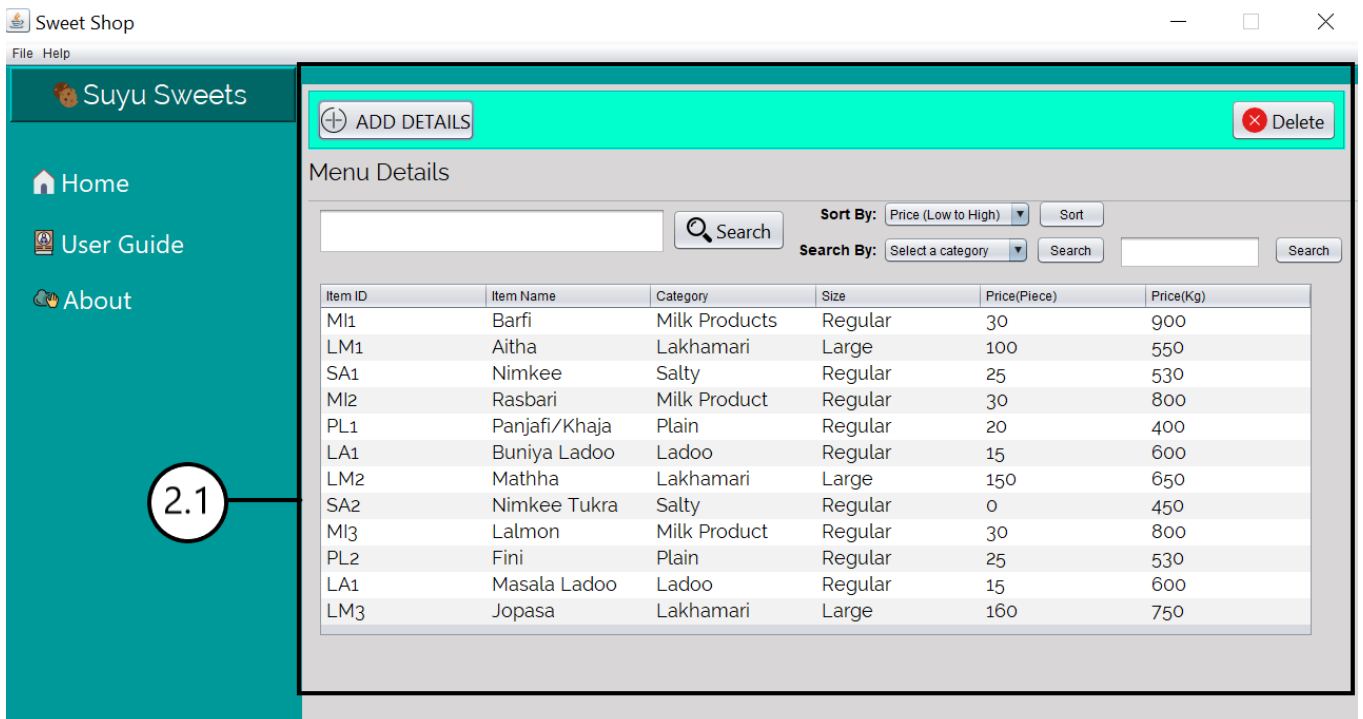

## 2. Main Menu

This is the main menu of this system. From here, we can navigate to different windows of the system.

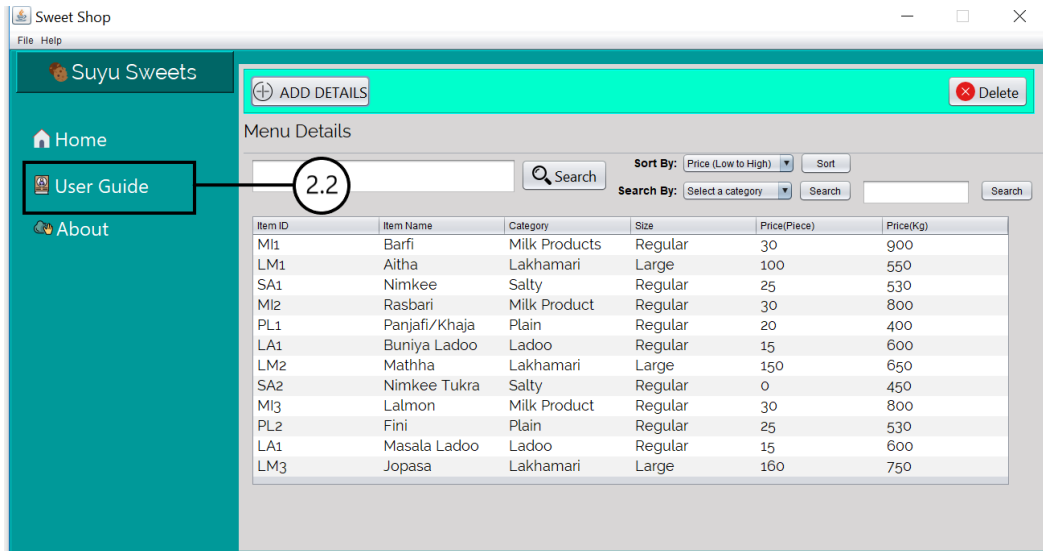

### 2.1. Home

As seen in the image, the segment on the right side of the system is the main menu of the system for the items. The home menu navigates us to the right segment.

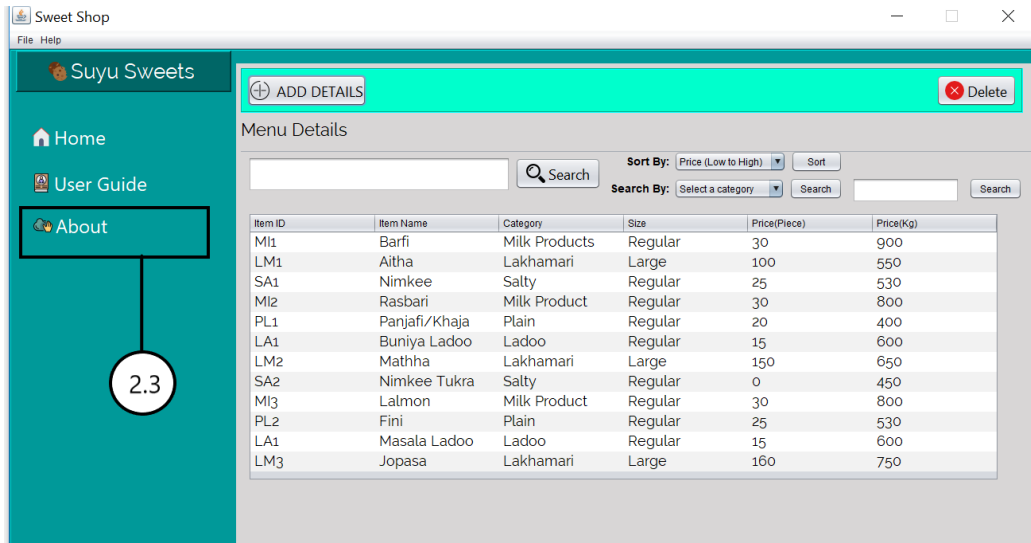

## 2.2. User Guide

This menu helps to open a new window consisting brief guide for the system.

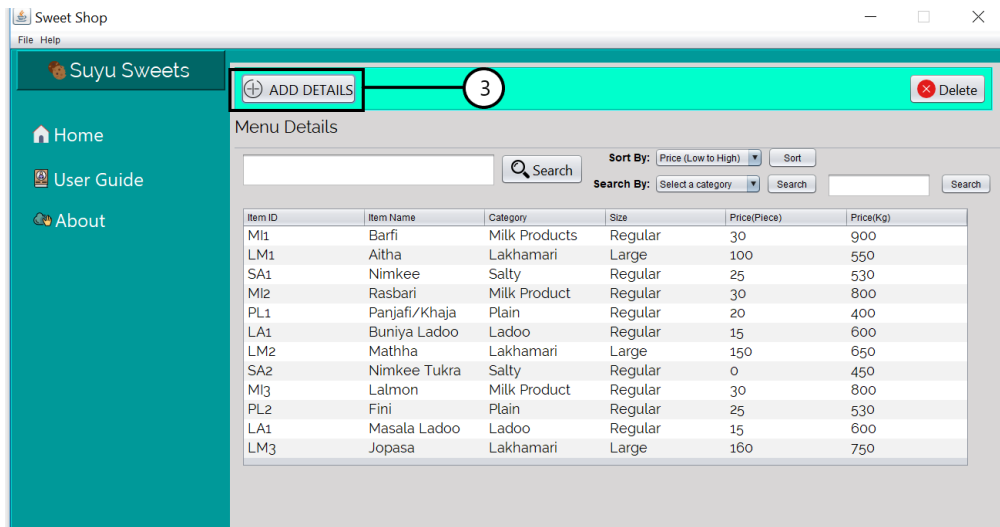

## 2.3. About

This menu helps to open a new window consisting the information about the developers.

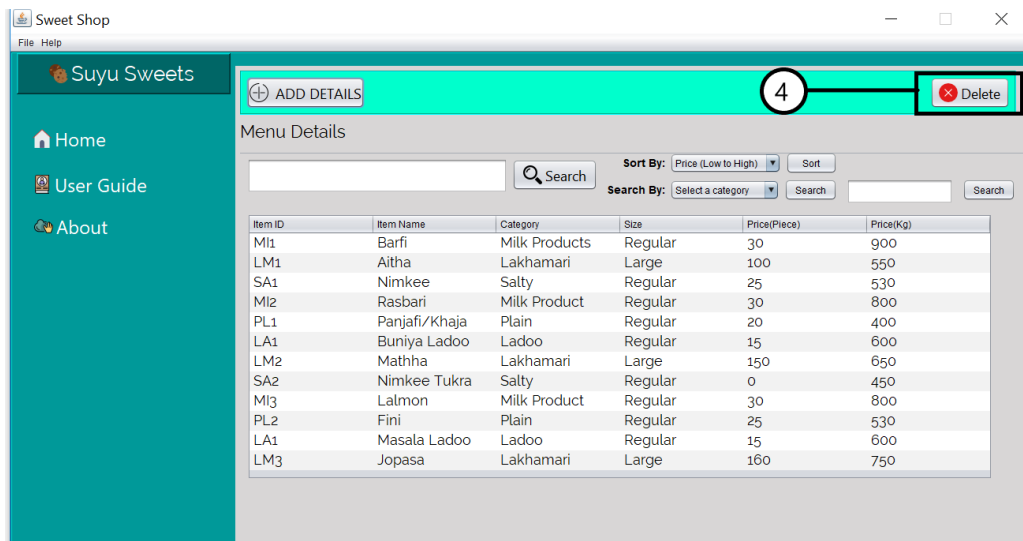

### 3. Add Details

To add data to table - For adding new item to menu table, press the 'Add Details' button on the top. Then, a window with form will appear.

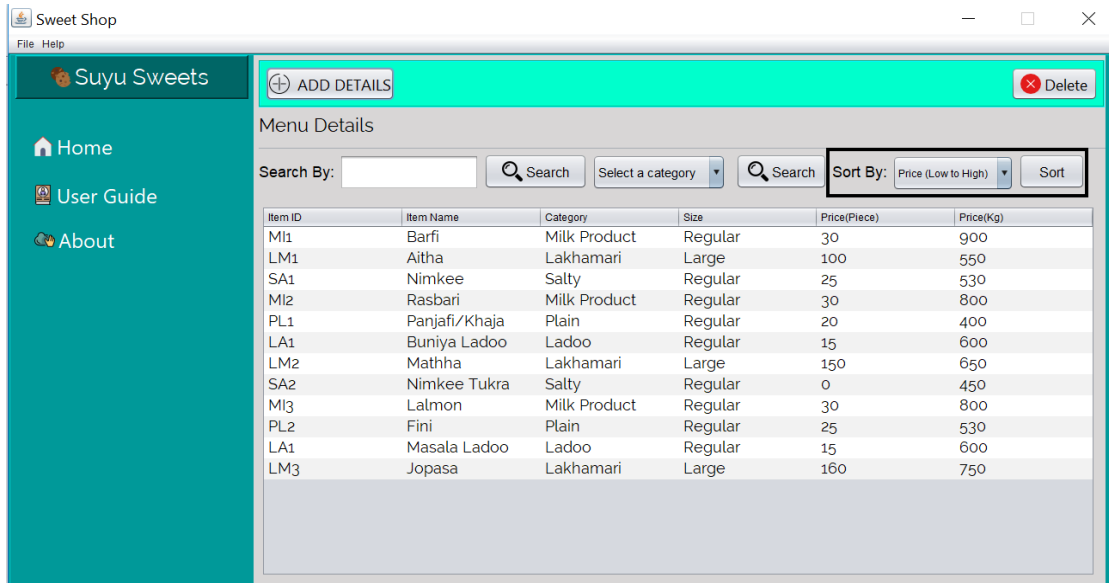

### 4. Delete Button

The delete button on the top right of the window can be used to delete the selected row.

## 5. Sorting

The search box can be used to input the price of item to search in the menu table.

## 6. Search Bar

The table can be sorted based on the price of the items (ascending or descending)
